Judges

The Court orders that the motion to remand is DENIED. As an appellee, the Michigan Public Service Commission cannot properly file a motion to remand under MCR 7.211(C)(1), which only provides for an *appellant* to file a motion to remand. Further, the MPSC has not established a need to remand for clarification of its orders.

The motion to stay the briefing schedule is also DENIED in light of the parties' stipulation to extend the time for the filing of appellee MPSC's brief on appeal until April 8, 2011.
